

March 2nd, 2026

Dear Dr. Suzan Farhang-Sardroodi,

I would like to extend my sincere gratitude for accepting our invitation to present at the CAMH Addiction Research Rounds on February 12th, 2026. Your talk, "Population Pharmacokinetic Analysis of Nicotine in African Green Monkeys: Disentangling Sex, Age, and Body Weight Effects," was well received by the group, and the feedback was very positive. I hope you will continue to contribute and participate in the CAMH Addiction Research Rounds in the future.

Sincerely,

Victor M. Tang, MD, MSc, FRCPC (he/him)

Lead, CAMH Addiction Research Rounds

Psychiatrist, Centre for Addiction and Mental Health (CAMH)

Scientist, Campbell Family Mental Health Research Institute

Assistant Professor, Department of Psychiatry, University of Toronto
